EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Brian Shelton on July 1, 2005.

The application has been amended as follows:

Regarding Claim 1, lines 1-2, the recitation, "for converting ECL signals to CMOS signals, said converter" has been deleted.

On line 3, the recitation, --receiving ECL signals-- has been added after "an input stage".

On line 6, the recitation, --converting said ECL signals to CMOS signal-- has been added after "the level shifter stage".

Regarding Claim 5, line 2, the recitation, "for converting ECL signals to CMOS signals" has been deleted.

On line 3, the recitation, --receiving ECL signals-- has been added after "an input stage".

On line 6, the recitation, --converting said ECL signals to CMOS signal-- has been added after "the level shifter stage".

Reasons for Allowance

Claims 1 and 5-7 are allowable over the prior art of record.

Art Unit: 2819

The following is an examiner's statement of reasons for allowance: the best prior art of record, Maples, taken alone or in combination of other references, does not teach or fairly suggest a converter comprising, among other things, an input stage receiving ECL signals and an output stage connected to the level shifter stage converting said ECL signals to CMOS signals, as set forth in the claims.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
